SUMMER
CAMP #2015

EUROPEAN DYNAMICS FOR DEAR EFFICIENCY PROJECT

Project aim is to improve local networks and DEAR interventions on 4 different territories through the development of European dynamics. It is integrated in all project partners' activities and policies and seeks to enrich them through a European scale approach.

The project is addressed to both DEAR local actors and local population and try to achieve the following Overall Objectives :

- 1) to foster the emergence of a global civil society in insisting on the necessity to draw up, in a democratic and sustainable manner, global answers to global issues.
- 2) to move the debate about necessary conditions for a more balanced and sustainable development forward in connecting DEAR initiatives with medias and political local debate.
- 3) to improve institutional and individual support for development and cooperation initiatives, especially those which taking into account new development paradigms.

DEAR SUMMER CAMP 2015

Organized by Cospe and Marche Region in collaboration with Marche Solidali network

2015 DEAR Summer Camp will take place in Pesaro (Italy) from 20th to 26th July.

Participants will be involved in training and awareness raising activities focused on the notion of "active global citizenship". They will discuss related topics, such as migrations, interculturality, and strategic communication in the non-profit sector.

During the camp, participants will also have the chance to develop a raising awareness action to be implemented on the territory and/or on-line.

PROGRAMME

14:30 Free time

21:30 Leaving party

MONDAY 27th

Departure

Trainers

Participants will be constantly supported by two expert trainers, with over 5 years of experience in the implementation of educational projects related to global citizenship both at national and international level

Methodology

Contents and activities will be developed according to the *instructional scaffolding* learning process: experts are only meant to provide sufficient support to the learner in order to identify key concepts, organize work spaces and tools, managing the agenda and conduct a debriefing phase. Active training techniques will be used, taking advantage from multimedia and interactive tools.

*If necessary, evenings could be used to organize the visibility actions expected on Saturday 25th
